

STUDY IN EUROPE is in prospect for Richard W. Smith, (right) USC architecture student and El Camino College graduate, who has been awarded a \$2,500 fellowship for study abroad.

Smith points out detail in a model to Henry R. Davis, center, president of Rapid Blue Print Company, and USC Architecture Dean Sam T. Hurst.

Richard W. Smith Captures Europe Design Study Prize

Richard W. Smith, winner of national design honors while enrolled in the art program of El Camino College and now a fourth year design student in the University of Southern California's School of Architecture, will study abroad for one year on receipt of the third annual \$2500 Rapid Blue Print Traveling Fellowship.

The son of Mr. and Mrs. Howard R. Smith, Smith will tour Europe, beginning in August.

Selection of Smith was made by Henry R. Davis, president of Rapid Blue Print Co., whose father and brothers were architects. Ross Montgomery, A.I.A., of Los Angeles, and USC's Dean of the School of Architecture, Sam T. Hurst.

Scholar and Artist
"Smith was selected in recognition of the variety and strength of talent he displayed in many areas," Davis commented. "The quality of his sketches and fresh hand work convinced us that he is not only a scholar but an artist as well. His presentation was extremely well-planned and he knows exactly what he wishes to see and study. He is particularly interested in interviewing architects in northern Italy and in studying the work of Aldo van Eyck of Amsterdam. Since Rapid Blue Print is indebted to the architectural profession for its growth and progress, we provide this scholarship in recognition of the need in America today for the kind of talent Smith has."

Winning fellowships and prizes is not a new experience for the USC student, who won the Daniel, Mann, Johnson and Mendenhall Mentor Award in Architecture at the conclusion of his second year. This is a \$4000 award which covers the third through fifth years of study at USC.

In 1959, Smith won a

Heed Turnout Signs on Road That Twists

Spring days are sunny, invigorating days on twisting mountain roads. For pleasure-seeking motorists, these twisting mountain roads will be safer and more enjoyable if all when drivers heed the "turnout" signs.

According to Capt. Errett L. Greer of the California Highway Patrol's South Los Angeles area, "motorists often think of 'turnouts' as merely a convenience. Actually, the law requires their use under certain conditions."

"Turnouts" have been installed on two-lane roads to speed the flow of traffic and to reduce the chances of a head-on collision caused by impatient motorists who gamble on passing the car ahead," Greer pointed out.

Whenever a slow moving vehicle impedes the progress of five or more vehicles, the driver must turn off the roadway at an officially designated "turnout." They can be identified by signs one-quarter mile prior to the "turnout," and at the "turnout" location itself.

The Highway Patrol official described slow moving vehicles as vehicles that proceed at a speed slower than normal traffic.

Other judges were Ralph Mills, band director; Mrs. Betty Hershey, El Camette adviser, and Bobbie Meten, flag twirler.

MAKES GRADE — Merrill E. Eastcott Jr. of Torrance will be commissioned an Air Force second lieutenant and receive his bachelor of science degree at graduation ceremonies Wednesday (June 5) at the U. S. Air Force Academy. President Kennedy will deliver the graduation address.

Lieutenant Eastcott, son of Mr. and Mrs. M. Elmitt Eastcott of 3730 W. 176th St., will be assigned to pilot training at Moody AFB, Ga.

The new Air Force officer, a graduate of Serra High School, received recognition at the Academy by being named chief falconer to handle the falcons used as mascots. He majored in engineering science.
